

 *at a glance*

TX7102/TX7103

Highlights

- Uses cleanroom wipers
- Load multiple wipers to streamline mopping
- Sterilize by gamma irradiation, chemicals, VHP, EO
- Swivel head
- Lightweight, easy to maneuver
- Telescoping handle

ClipperMop™

Use Standard Wipes for Mopping.

ClipperMop™ cleanroom mops are designed to use standard 9" x 9" and 12" x 12" cleanroom wipers, eliminating the need to qualify and inventory additional wipers or mop covers.

The patented mophead utilizes non-abrasive polyethylene clips to securely fasten one or multiple wipers to the head. The ClipperMop wiper attachment method does not release particles, fibers, and dirt and may be sterilized.
