

Protect your environment with premium disposable cleanroom apparel.

Lakeland's complete line of CleanMax disposable garments is designed with your environment, people, and product in mind. These garments are simpler to don, comfortable to wear, and backed by Lakeland's 40+ years as a manufacturer of premium protective clothing.

Let Lakeland help mitigate the risks posed by the greatest source of contamination to your critical environments.

Request A Sample

Request a sample from one of our three lines of CleanMax clean-manufactured cleanroom apparel and learn more about what line best fits your applications and the requirements of your contamination control program.

To maintain available stock and quality product, Lakeland is proud to own our manufacturing facilities around the globe, allowing us to provide traceability down to the individual garment. Contact Lakeland to learn more about our consistent supply, logistics, and quality management programs.
