

TECHINCAL DATA SHEET

Description:

Class 10 certified cleanroom Sharpie with IPA-resistant permanent ink. Will mark on wet or abrasive surfaces. A break-resistant clip and durable tip help provide one of the most durable Sharpies for a controlled environment. The anti-roll barrel shape, ribbed grip area, and lanyard loop allow for more confidence in not contaminating the pen from a dropped cap or dropped pen. Manufacture with a chisel tip. Double-bagged in packs of 12. Individual wrap upon request.

Applications:

For use on wet surfaces, glass surfaces, poly bags, rodac plates, and labware.

Industries:

Semiconductor, Pharmaceutical, Aerospace, Bio, Medical, Cleanroom Construction, Electronics and Laboratory Research. Laboratory Research.
