

PF-2 Face Masks

Elastic and Four Tie Masks

PF-2SM-T-4-S-2021

PF-2SM-2-S-2026

The PF-2 face masks have been innovatively designed for use in the pharmaceutical, biotechnology, and medical device industries or in any cleanroom operation. VAI®'s PF-2 face masks are made of 100% rayon. The PF-2 face masks allows for excellent breathability, comfort, and protection, while maintaining filtration efficiency. The mask is designed to absorb moisture, therefore, it continually improves its own filtration efficiency. VAI's face masks are low in particulate and shedding characteristics and offer a barrier between the environment and the user.

PF-2 face masks come standard with a comfort fit nose piece that, along with the face mask's absorption efficiency, virtually eliminates fogging of one's own goggles. The comfort fit nose piece also protects the wearer from the lower edge of the goggle. This feature makes it unnecessary to continually adjust the goggles.

For pharma/biotech/compounding pharmacies only.

Features and Benefits

- Sterile masks are available individually packaged with bulk non-sterile packaging available
- Available in two different styles: either two elastic straps or 4 ties
- Sterile face masks are process in an ISO 5/6 (former Class 100/1000, Grade A/B) manufacturing area
- Five year validated closed packaged expiration date with sterility assured via gamma irradiation
- Lot sterility tested according to current USP compendium
- Delivered each time with lot specific Certificate of Irradiation, Certificate of Sterility, and Certificate of Conformance tested according to current USP compendium
- Completely lot traceable
- Soft, comfortable, and breathable
- Low particulate and shedding characteristics
- Mask continually improves its own filtration efficiency
- Goggle fogging is virtually eliminated due to absorption efficiency
- CE marked as category 1 PPE
